PROFESSIONAL EXPERIENCE

General Directorate of Drugs, Supplies and Pharmaceuticals (DIGEMID)
Data Analytics Consultant

Lima, Peru
Feb. 2026 - Present

- Developed a pharmacovigilance notification dashboard following WHO standards to generate automated reports for stakeholders on their medications, reducing manual requests by over 80%.
- Designed an ETL pipeline saving 2+ hours of manual work per week for processing and integrating data from the WHO platform into the institution’s SQL server.
- Presented to the Vice Minister of Health and the Board of Pharmaceutical Chemists on projects developed, securing 50K+ USD in funding for the institution to pursue new developments.

Faculty of Economics - UNMSM
Econometrics Teaching Assistant

Lima, Peru
Jan. 2026 - Present

- Assist Prof. Marvin Padilla in teaching econometric and statistical modeling to 50+ students per semester. Enrollment rate increased by 15% and average grades improved by 10%.
- Develop applications in Python and R for forecasting macroeconomic and financial time series.

BBVA Peru
Data Engineering Intern

Lima, Peru
Jun. 2025 - Oct. 2025

- Developed dashboards for analyzing and monitoring KPIs of disbursed mortgage loans (18MM+ PEN) and consumer loans (15MM+ PEN), enabling performance auditing of team metrics.
- Designed a Python ETL pipeline to process 50K+ records related to Net Promoter Score calculations in Operations factories, automating data loading and reducing manual intervention.

LEADERSHIP & IMPACT

Techy, Data Science School (*Mentor*)

Mar. 2026 - Present

- Support the progress and technical skill development of 5 Techy Women program scholars. Teach EDA processes, data visualization, insight generation, and AI applications.

EDUCATION

National University of San Marcos (UNMSM)

Apr. 2022 - Present
