PROFESSIONAL EXPERIENCE

Dirección General de Medicamentos, Insumos y Drogas (DIGEMID)

Lima, Peru

Data Analysis Consultant

Feb. 2026 - Present

- Developed a pharmacovigilance notification dashboard adhering to WHO standards to automate reporting for regulated entities, reducing manual requests by over 80%.
- Collaborated with the Research and Studies Team to analyze ENAHO microdata using Stata, evaluating out-of-pocket healthcare and medicine expenditures to derive key preventive indicators for the institution.
- Designed and implemented an ETL pipeline that automates the processing and integration of WHO platform data into the institution's SQL Server, saving over 2 hours of manual labor per week.
- Presented data-driven projects in high-level meetings with the Vice Minister of Health and the College of Pharmaceutical Chemists, successfully securing over \$50K USD in institutional funding for future developments.

Facultad de Ciencias Económicas - UNMSM

Lima, Peru

Econometrics Teaching Assistant

Jan. 2026 - Present

- Assist Mg. Marvin Padilla in teaching econometric and statistical modeling to over 50 students per semester, contributing to a 15% increase in course enrollment and a 10% improvement in class average grades.
- Develop Python and R applications focused on forecasting macroeconomic and financial time series.

Red de Estudios para el Desarrollo

Lima, Peru

Research Assistant

Oct. 2025 - Jan. 2026

- Drafted national and regional radio scripts on economic, social, and political issues, translating complex technical analysis into accessible language for the general public, with primary responsibility for the Arequipa region.
- Processed official household microdata (ENAHO, ENDES, EPEN, and Consulta Amigable) to construct structural indicators and descriptive visualizations for public dissemination products.

LEADERSHIP & IMPACT

Techy, Data Science School (*Mentor*)

Mar. 2026 - Present

- Support the tracking and technical upskilling of 4 scholars within the Techy Women program, instructing them in exploratory data analysis (EDA), data visualization, insight generation, and AI applications.

Asociación Peruana de Estudiantes de Economía (*Volunteer*)

Mar. 2026 - Present

- Member of the "Reporta" team, analyzing national and international economic and financial news to create concise summary posts for social media platforms.
